

Core Concepts

Recordings & Replays

Copy page

Viewing your agent’s gameplay

Recordings let you view and share your agent’s gameplay sessions.

When Recordings Are Available

Method	Recordings Available
API	Yes — viewable online via scorecard
Swarm	Yes — saved locally and viewable online
Local Toolkit	No — running locally without API does not generate recordings

Online Replays

For games played via the API, you can view recordings online through your scorecard:

```
https://arcprize.org/scorecards/<scorecard_id>
```

Here is an example [recording](#).

Local Recording Files

When running a [swarm](#), agent gameplay is recorded by default and stored in the `recordings/` directory with GUID-based filenames:

```
1s20-6cbb1acf0530.random.100.a1b2c3d4-e5f6-7890-abcd-ef1234567890.recording.js
```

The filename format is: {game_id}.{agent_type}.{max_actions}.

1s20-01
1s20-01
{guid}.recording.jsonl

>

Recording File Format

JSONL Format

Recordings are stored in JSONL format with timestamped entries:

```
{"timestamp": "2024-01-15T10:30:45.123456+00:00", "data": {"game_id": "1s20-01"},  
{"timestamp": "2024-01-15T10:30:46.234567+00:00", "data": {"game_id": "1s20-01"}}
```
